4. FOOD – Food should not be left out on your campsite when you are away from it and overnight. It attracts bears and may result in a \$250 fine from conservation officers.
5. RECYCLING – Recycling bins are located at each bathroom facility.

IMPORTANT TIPS ABOUT YOUR CAMPSITE

1. POWER – If you find that your power terminal has no power, please switch the black breakers to the "ON" position. These breakers are located just above the plug-in terminal. Please DO NOT TAMPER with any other part of the power terminal.
2. WATER – There are water yard hydrants located at each site. Please ensure that they are fully turned on when in use, and fully turned off when not in use. This prevents damage to the hydrant. The water on site is treated city water and is safe to drink. If the water should ever appear dirty, let it run for a few seconds to refresh the water supply.
3. FIREPITS – Please use for FIRES ONLY – DO NOT PUT GARBAGE IN FIREPITS!
4. TENTING - Grey water or "dish water" should be disposed of in the sinks provided at the laundry facility or dishwashing station.
5. WiFi - Internet available for all, use the one named the same as your designated area (Sunflower Hill, Mountain View, Pine Meadows), there is no password. Private routers are also available for a fee at the campsite office and are suggested for high bandwidth use.
